Employee Navigator
HR / Benefits Technology Integration

Reliance Matrix and Employee Navigator utilize Matrixlink®, a purpose-built data integration platform designed to transform employer and employee experience activities into data that communicates through modern connections.

We follow a set of principles to realize efficiencies and productivity gains across platforms by eliminating manual tasks and countless mistakes created by systems trying to talk to each other:

System of record closest to payroll	Enhanced customer experience	Meaningful process automation	Intelligent data access and security

Exclusive Advantages:

Automatic Billing
Life, Disability and Supplemental Health invoices are auto-generated each month and sent directly via email to billing contacts, *meaning no more file feeds or error reports.*

Digital Evidence of Insurability
A digital self-service process for obtaining EOI applications and employee/spouse signatures, *designed for simplicity and used for initial, annual or perpetual enrollments.*

Benefits available:

Dental

Vision

Term Life

Disability

Accident

Critical Illness

Hospital

For more information contact your Reliance Matrix sales or account manager or visit reliancematrix.com

For Dental & Vision plans, a file feed is required for claims auto-adjudication.
